About me

A Web Developer with expertise in JavaScript, TypeScript, React, and Next.js, skilled in building scalable web applications. Proven experience as a React front-end developer, with a strong foundation in API integration, and backend development. Proficient in delivering user-centered solutions, with hands-on experience in developing platforms for business management. Known for problem-solving and technical adaptability in dynamic project environments.

Work Experience

Freelance Software Developer

2021 - Present

- Closely collaborated with clients translate complex requirements into accessible, visually appealing digital solutions, effectively communicating design and development choices.
- Contributed to several projects, enhancing functionality, optimizing user experience, and actively engaging in collaborative feedback to drive continuous improvements.

Graphic and Web Designer

Color House Multimedia 2019 - 2020

- Designed visually appealing and user-centered interfaces, ensuring consistency and brand alignment across digital platforms.
- Communicated design concepts to diverse clients, translating complex ideas into understandable visuals.
- Contributed to design projects, refining visual elements and actively participating in collaborative feedback to foster design improvements and innovation.
- Assisted in researching and implementing articles and tutorials on design principles, web trends, and best practices to educate and inspire the design team.
